

Feed by over 200 rivers, Lake Superior is the deepest of the Great Lakes, averaging almost 500 feet in depth. National Parks, National Lakeshores & Provincial Parks with names like Sleeping Giant, Pictured Rocks, and Isle Royale hug the Lake's shores or rest within her waters. Sculpted by wind, ice, and waves the multi-colored sandstone cliffs of Pictured Rocks National Lakeshore display breathtaking castles in the air and bridges over some-times still, oft-times turbulent, all-times cold water.

Lake Superior

deeply supportive..... helps one to release the struggle that keeps one preoccupied.....
offers profound Peace..... the doorway to the Great Spirit

Water is truly wisdom
and Lake Superior holds a deep, deep clear Wisdom.
There never was a gentler, more peaceful day on the lake
than the day we made this essence.....
the water flat and crystal clear
speaking peacefully and clearly with the strength of her depths.
This essence is for those who are truly ready to see,
who are no longer afraid of the unknown
but are ready to sit peacefully and watch the great mysteries unfold.....
no longer distracted by the irritations of this plane.....
Profound Peace, the doorway to Initiation and the Mysteries of the Cosmos.
This essence can also be extremely helpful
to those who are still caught up in struggle,
who seek Wisdom, seek Depth, seek to know the Truths of all time
but as they find themselves in Perfection ~ their hearts desire ~
they become preoccupied by the flies that are there too.

Lake Superior brings us a soothing soft coolness
to wash away the sharp edges.....
to round us like a stone.....
to break us down into Sand to become the Earth herself ~
the Vessel to hold this great Lake..... this great Mystery..... this gentle day.
This is all done with such Grace, Power, and profound Healing
that we will be purified..... and we will never be the same again.

Made on an 85° day on a sandy beach on the South shore of Lake Superior.
The Lake here has a red sandstone bottom
breaking into maybe 20 miles of red sandy beach
including Sand dunes on the Lake shore.
An underground Spring is bubbling through the Rocks
and emptying into the Lake here.
I have never seen this mighty giant of a Lake so peaceful.
