

This essence helps to soften, to soothe, to round, and to gently bring the energy and life force back into your body, your mind, and your soul..... a blessing from the Mother with Love.

Lake Superior Hue

for exhaustion or depletion... helps to restore color frequencies and energetic vibrancy to the aura, allowing the physical body to rest and revitalize

So be it. There is harmony.
So be it. There is grace and gentleness to the eyes.....

The Sand
an infinity of tiny sifting crystals of varied colors in harmony.....

The beach Rocks
a larger version of these colors,
more solid,
more tangible,
still shifting with the tide.....

The Water
changing from green
to aqua
to teal
to deep, wise blue with white, foamy, sparkling breakers.....
The quiet blue Sky,
thinly painted with listening, watching, angelic clouds.....
This deep, deep cold.....
And pure Lake surrounded by green Forest ~
red pine, cedar, birch, poplar,
beach grass,
fox, bear, deer and a hundred forest creatures.

The Lake Superior Hue essence is all of this harmony
of Color
of Light
of the Community of Energy and Light Force of Nature.....
Subtle, quiet, radiant, strong.....
Here to rest our eyes and feed our souls.

To take this essence
is to experience resources and love of the Mother.....
to be held in her soft, strong arms
and kissed gently back to a state of Peace.

This essence is for the eyes, especially city eyes
who must experience such harsh conditions as urban bright,
flescent lights, computers and other chaotic, artificial scenery.

Lake Superior Hue is gentle, quiet beauty
and the harmony of color, light, sound, and texture.
Bathe in this essence
or put a drop in your chamomile tea,
then
soak two cotton balls and apply this to your eyes while you rest.
Modern life has created harsh colors,
electric sounds, rooms with square corners.
This essence helps to soften,
to soothe, to round,
and to gently bring the energy and life force
back into your body, your mind, and your soul.....
A blessing from the Mother with Love.
