

Jack Pine

helps one let go of a preconceived agenda, trust in intuitive guidance
& gracefully make adjustments in plans accordingly

Native Americans refer to their spiritual journey on Earth
as walking the Red Road.

Choosing to walk here with consciousness and care
requires constant attentiveness to the changing signs around us
and ability to listen to our gut feelings
and willingness to make the appropriate adjustments
in our emotions and actions.

This pine is rooted in the sands of a dune
that is constantly changing shape
in response to the calls of Wind and Water.

The weather conditions
along this northern shore of Lake Michigan
can be dramatic and harsh.

In its near 100 years of life
the tree has made many adjustments and adaptations in growth
that have aided its ability to stabilize and thrive.

The Jack Pine essence

is helpful to those who must learn
the qualities of adaptation and graceful survival.

It helps to work with the dynamics of a changing or challenging phase,
helping one to identify more clearly one's aspirations
and to bring those dreams into alignment with Divine purpose.

This essence is all about

learning to trust the process,
recognize the signs

and make our adjustments in plans and actions accordingly.

Jack Pine essence

allows for a relaxation of tension in the third-eye and heart chakras
so that the energies of your life
may become more harmonious and coordinated in these centers.

Our ability to interchange love with the Natural world
and to sense, and possibly have contact with, Nature Spirits
is enhanced over time.

One of the reasons for this is that,
as one's own aura becomes more radiant and luminous
through the use of Jack Pine essence,
a musical quality begins to emanate from the heart,
harmonizing with Nature's own symphony
as though you have become one with the music
and now are allowed to see and experience its players.
The Jack Pine radiates this powerful healing energy
as it releases copious clouds of pollen.....
a blessing of love music to illuminate our direction
and hold us true to this Red Road of honor.
