

*Sweet Pea is native to the eastern Mediterranean region from Sicily east to Crete.
Cultivated since the 17th century, Sweet Pea is a member of the legume family with sweetly scented flowers.*

Sweet Pea

helpful for travel or times of transition... supports the leap of faith
to reach out and try something new

Sweet Pea essence encourages within us
an ability to stretch out from our point of origin
and embrace new concepts, other cultures, and bright ideas
with enthusiasm and playfulness.

Sweet Pea encourages the strength that comes from trial and error.
Relying on both under- and over-ground networks,
Sweet Pea challenges current ideas and systems
to reach out and try something new.

Sweet Pea helps one to act from a place of security and courage,
trusting that leaps of faith will land us on harmonious soil
and that our connection to Source
will remain steadfast and well-rooted wherever we travel.
