

# Bear Lodge

(Devil's Tower, Wyoming)

for feelings of being undermined and unrespected... helps one to align with the strength of the Spirit and regain one's balance, confidence & power

This essence  
empowers one  
with a strong sense of inner and outer protection.

It connects us  
with an ancient and everlasting source  
that allows us to stand tall and immutable  
with the knowledge that the heart has the power  
to rise up mountains from pebbles.

Our confidence in our own power and wisdom  
has been undermined by centuries of emasculation  
by those who wish to keep us confused about our true identity.  
in order to continue to amass their own riches and self-serving power  
at the expense of the Earth and all her inhabitants.

The Bear Lodge essence  
helps us  
to open a deep and vertical connection with the Earth.

It aligns our will  
with the powerful Spirit of Life  
that can transcend our reality  
and awaken us from spiritual hibernation.

It shows us that true protection  
is ever present  
and only requires us to clearly perceive our roles  
and allow the power of universal wisdom to rise within us,  
victorious and pure.
