

Ou la' la' Lion's Tail..... flamboyant, fun, regal.....

Lion's Tail

Leonotis leonurus

encourages freedom to engage in creative, spontaneous play & re-creation
that is vital to happiness & life

Ou la' la' Lion's Tail.....

flamboyant, fun, regal.....

this flower essence works with the showoff, exhibitionist energy in all of us
and says: Shake your booty and have some fun!

There is nothing traditional or calming about this flower
as one orange shaggy plum gives way to another... and another.

Too much attention to business ~ with its worries and cares ~
can dry up the creative spontaneous play within us.

The essence of Lion's Tail
encourages the freedom
to explore life unrehearsed
and to engage in the impromptu of situation with joyful abandon.

The Lion's Tail essence helps one to surrender one's reserve
and reveal like a child at play
in the re-creation that is vital to happiness and life!
